Summary

A results-driven, customer-focused, articulate and analytical Senior Software Engineer who can think "out of the box". With strong knowledge in design and integration problem solving skills. With more than +8 years of experience developing applications using several programming languages. Skilled in developing business plans, requirements specifications, user documentation, and architectural systems research.

Experience

Senior Software Engineer at Caravelo   **05/2014 - Present**

- Implemented main platform from scratch, using plugins architecture (previous step before micro-services).
- Delivered multiple products built on top of the same architecture (Multilanguage, multitenant, etc.).
- Leaded and Implemented Camunda BPM Engine for one of the products that required workflow handling.
- Leaded the development of an entire new product from scratch, from defining user stories to delivering and maintaining the system in production environment.
- Mentored junior developers when they were starting on the company.

Software Engineer at Intel Corporation   **01/2011 – 05/2014**

- Participated in several projects each one with different technology stack (C++, C#, Java, Nodejs, etc.).
- Certified Scrum Master by the Scrum Alliance as part of the agile transformation of the company.
- Worked on global geo-located teams, using scrum in order to coordinate the entire product development.
- Published and presented a paper in the Intel Software Professional Conference: "Feedback-Driven Solution for .Net Developments".

Data Engineer at Aguas Cordobesas S.A.   **03/2008 – 12/2010**

- Developed multiple scripts on Informix 4GL/SQL.
- Designed and created Reports with SQL Server Reporting Services.
- Maintained company software solutions but also added some functionality enhancements (Java and VB).
- Built internal tools to solve specific needs in the IT area, but also outside of it.

Education

Systems Information Engineering at Universidad Tecnologica Nacional   **2003 - 2010**

Participated as a teacher assistant on the Software Engineering subject.

English Course at Universidad Nacional de Cordoba   **2010 - 2012**

International English certification is still pending (B2).
